## ENVIRONMENTAL POLLUTION

---

Has become a common problem worldwide with the increasing use of plastics.

## AIMING TO KEEP IZMIR CLEAN

---

We also want make people living in Izmir to be more conscious about keeping the city clean.

## INFORM PUBLIC

---

Through distribution of brochures and by putting up banners.

# THE SCOPE

Collect garbage in public areas and distribute posters and brochures with information to help keep the environment clean.

Keep the environment clean and to raise people's awareness.

Reach more people with posters and brochures we prepared.

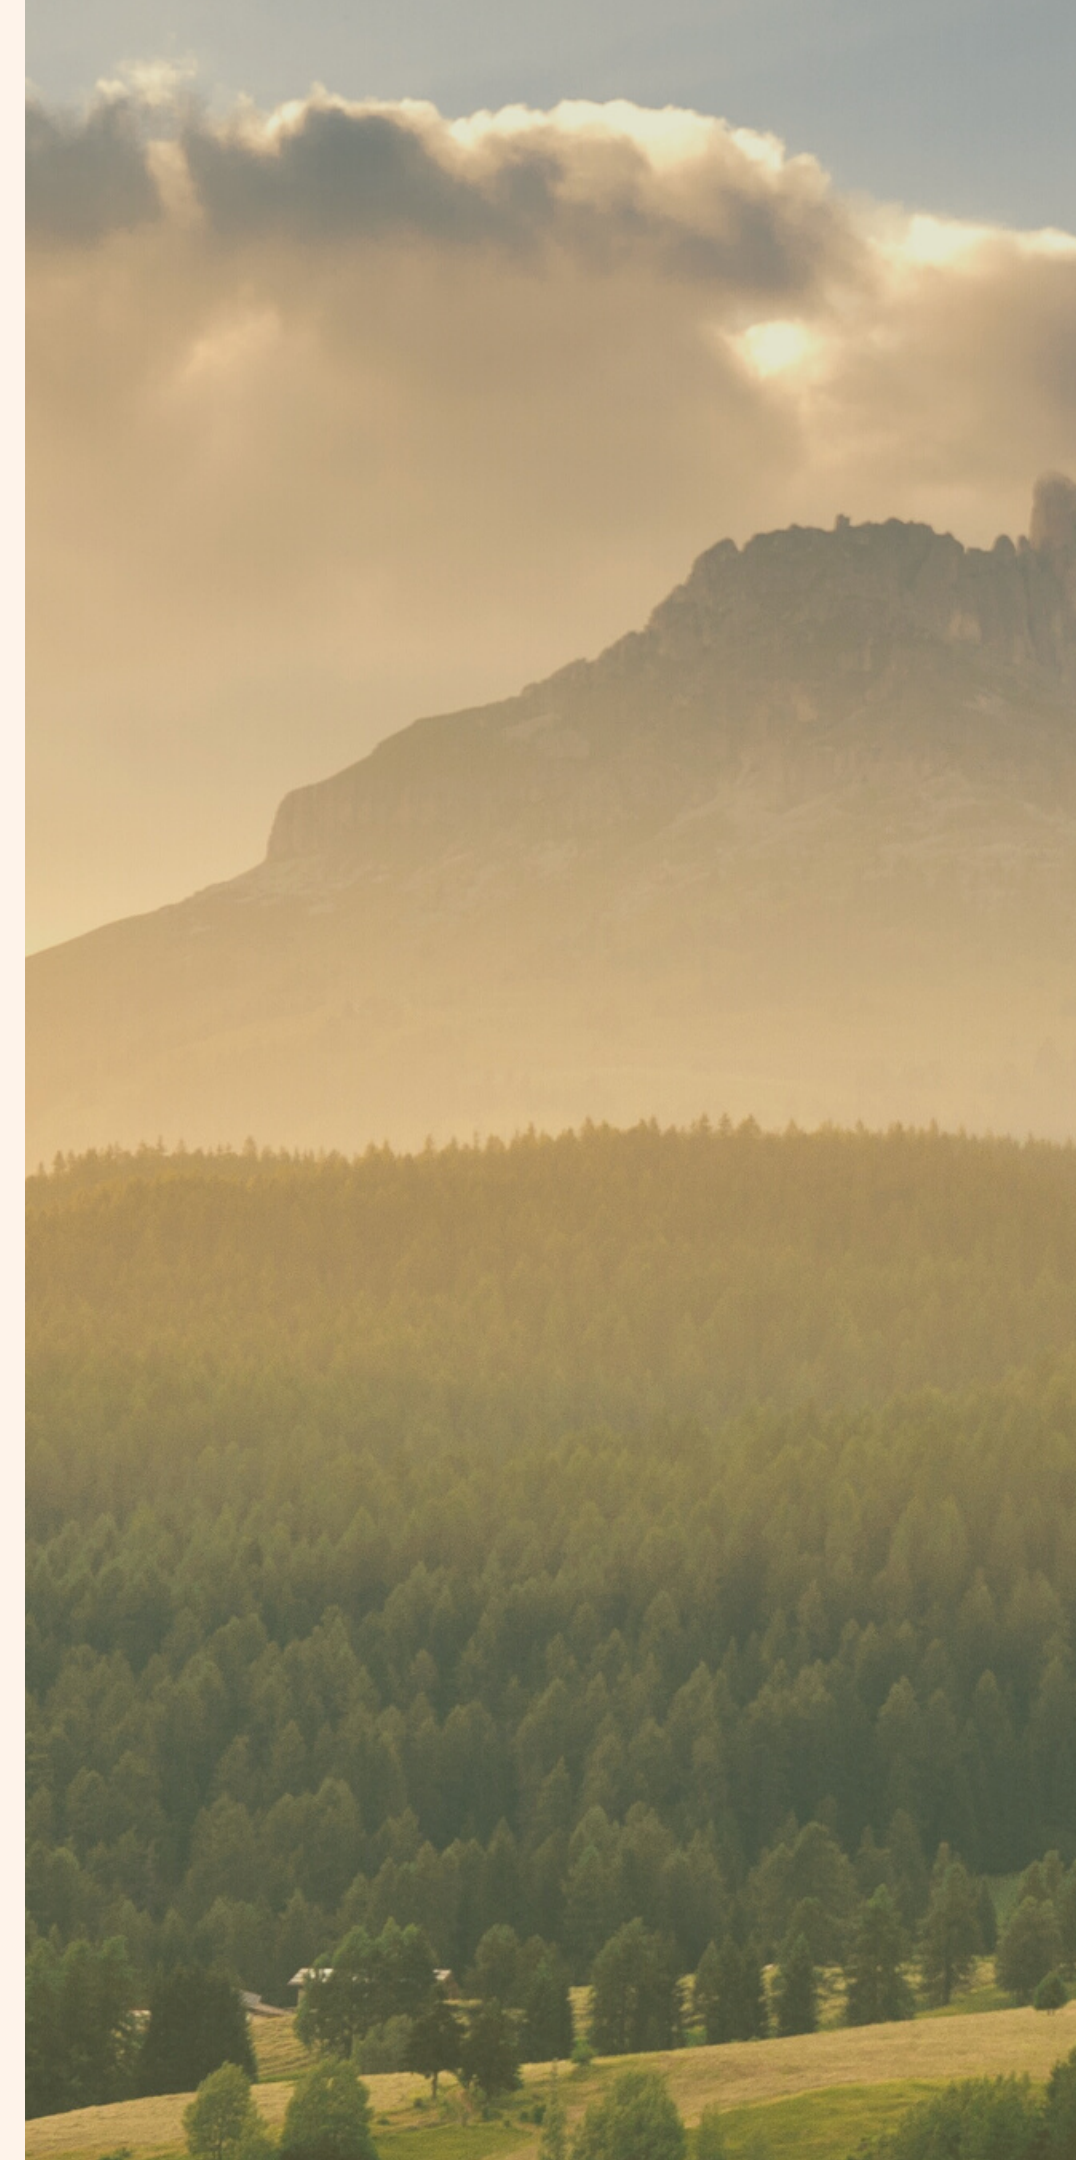

---

# SO WHAT HAVE WE DONE?

- We investigated the studies carried out in Izmir about environmental cleanliness.
- We created social media account and collected the equipments for cleaning and also designed posters and brochures
- We cleaned up Karşıyaka-Alaybey, Bostanlı-Mavişehir cords.
- We need to create awareness for people instead of just keeping the environment clean.

# RESULTS OF PROJECT

We encountered positive reactions from people in the areas where we collected garbage. We didn't get the efficiency we wanted from social media for the purpose of our project. After our literature review, we realized that marine pollution has reached a dangerous level.
